**Subject:** Issues List For The Electric Competition Advisory Group

Please add me to the Electric Competition Advisory Group:

Doug Fant  
Arizona Power Authority  
1810 W. Adams  
Phoenix, AZ. 85007

(602) 770-5098  
douglasfant@powerauthority.org

I add a couple of comments in relation to Items "c" and "d" per the Arizona Corporation Commission's information request. That is to identify market issues related to the provisions in the Retail Competition rules that generally impede or discourage competition.

Perhaps already covered, but regardless of how or in what fashion any RTO development proceeds in the Southwest, we should look to standardize methods for third parties to ascertain what and where transmission capacity is available....

Sincerely,

Doug Fant
